

Naslagwerk huisarts

Kaart van Amsler

General instructions

1. If prescribed, take this test with reading glasses on, and view at 14 inches.
2. Cover one eye with your hand and look at white solid square in center.
3. Test opposite eye in similar manner.
4. If any lines or squares appear wavy, distorted or otherwise irregular or if a blind area appears during the testing of either eye, consult a licenced eye specialist
